

Text Amendment of Ordinance 6, Mining Ordinance
Ordinance 6, Chapter 13, Section 2.H.1, Source of Materials
Public Hearing
May 3, 2016

The Planning Commission of Eureka Township will hold a public hearing on May 3, 2016, at 7:00 p.m. in the Eureka Town Hall located at 25043 Cedar Avenue. The purpose of the public hearing is to consider an application by Dan Ames for a Zoning Ordinance Text Amendment as follows:

Ordinance 6, Chapter 13, Section 2.H.1, Source of Materials

Delete the words “*and if the recyclable concrete and recyclable asphalt originated from a road demolition or road repair project in the Township of Eureka*”.

Mr. Ames states *‘This text amendment is consistent with the Eureka Township Comprehensive Plan on pages 2-16, in that it will promote beneficial uses of our valuable aggregate resources in a manner consistent with currently permitted mining sites. It will allow for us to blend our existing aggregates with recycled materials to make a product that is more usable in the construction industry. Tow-way hauling will be utilized for the recycled materials so truck traffic will not be increased.*

All persons wishing to be heard on this matter will be allowed to address the Commission.
